

Bar & Chain Oil

Description

Bar & Chain Oil is a tacky lubricant formulated for the protection of chains, bars and sprockets on chainsaws. It is suitable for use with both automatic and manual operated oil systems and can be used on other chain driven equipment including motorcycles, lawnmowers and farm equipment.

Benefits

Bar & Chain will penetrate the links of chains providing thorough lubrication. It is blended with anti-wear additives that give increased working life to the bar, sprockets and chain. The tacky quality of the oil will resist excessive throw off and form a strong protective film at rest. CHAIN AND BAR 150 will assist to keep the saw clean by flushing dust, gum and wood chips away, remove pitch and prevent further pitch build-up on the chain and bar

Specifications

- ISO: 150

Technical Data

Characteristics	Hydra ISO 46
Specific gravity at 15 C	0.8660
Kinematic viscosity at 40 C, mm ² /s (cSt)	150
Kinematic viscosity at 100 C, mm ² /s (cSt)	21
Viscosity index	161.0
