

Mono 30W

Description

MONOTECH oils are mono grade automotive engine oils designed for a wide range of petrol and diesel engines. Primarily recommended for use as a single oil in mixed fleets containing both light and heavy duty, four stroke diesel and petrol engines, both naturally aspirated and turbocharged or where a mono grade oil is recommended. The mid sulphated ash content ensures its use for mixed fleet operators including those with petrol engines with catalytic converters.

Benefits

- Can be used in non-engine applications where oils of its performance level are suitable, such as manual and powershift transmissions and mobile hydraulic systems
- Also recommended for generator sets and high-speed diesel engines in marine service
